

MNT-DWHP Antenna Conversion Mount

MNT-DWHP ANTENNA CONVERSION MOUNT

Highlights

- » Allows mounting Trango ODUs used with Giga Plus, Sparta Elite, Giga Pro, Giga Lynx, Giga Orion, Apex Plus, Apex Lynx and Apex Orion systems on DragonWave antennas
- » Lightweight aluminum construction with stainless steel hardware
- » Slip fit with latches for quick installation
- » Negligible insertion loss <0.2 dB
- » Supports H and V polarization

Description

The MNT-DWHP series of conversion mounts allows antennas designed for DragonWave ODUs to be reused with Trango ODUs. This product saves cost and time involved with removing, replacing and realigning the antennas. Installation is extremely fast with four latches used to attached the mount to the antenna and four latches to attach the ODU to the mount.

Applications

Reuse of antennas designed for DragonWave products with Trango ODUs

Compatibility Guarantee

MNT-DWHP conversion mounts have been tested with Radio Waves -DW2 antennas and are guaranteed to fit. No compatibility with other antenna brands or models is guaranteed.

Specifications

MODEL #	FREQUENCY RANGE
MNT-DWHP-11	10.7-11.7 GHz
MNT-DWHP-18	17.7-19.7 GHz
MNT-DWHP-23	21.2-23.6 GHz

ENVIRONMENTAL	
Operating Temperature	-40°C to +65°C
RoHS Compliance	Yes

MECHANICAL	
Material	Aluminum 6061-T6
Size	8.5" x 8.5" x 3.75" (21.5 x 21.5 x 9.6 cm)
Weight	3.25 lbs/1.47 kg
Strikes	Stainless Steel
Gasket	Pure Silicon
